President’s Lecture Series Seminar: Allen Wood on “Kant on the Independence of Right from Ethics”

Monday, 29 October 2012
3:10-4:30 P.M.
Gallagher Business Building 123

You are cordially invited to attend a seminar with Allen Wood. Since obtaining a Ph.D. from Yale University in 1968, he has held regular professorships at Cornell University and Yale University. He also is the Ward W. and Priscilla B. Woods Professor emeritus at Stanford University. His scholarly interests are in the history of modern philosophy, especially Kant and German idealism, and in ethics and social philosophy. He studies
philosophers of the eighteenth and nineteenth centuries who laid the foundations for the philosophy we study today and the ideas many people take for granted without knowing where they came from. At Indiana University he has taught courses in the history of modern philosophy, Kant and existentialism.

In addition, that evening at 8:00 P.M. in the University Center Ballroom, he will give the Henry Bugbee Annual Lecture on Philosophy, “Marx on Equality.”

Students will explore the different ways that communication is expressed across cultures in order to better understand the dynamics of cross-cultural communication and develop the skills needed for successful cross-cultural interaction. (1 cr.) Soazig LeBihan R 5:10-6:00 p.m. DHC 117. Consent of instructor required.

This course will enhance students’ understanding of how to prepare for, and how to be successful in, law school as well as provide them with specific information concerning careers in the law. Students will gain practical insight and have the unique opportunity to interact with legal professionals and law school admission officers to explore their futures in law school and the legal profession. The main goal of the course is to help students to make a well-informed and appropriately self-aware decision about whether or not, and if yes why, a career in the law is the professional path that best suits their personality traits, their academic strengths and weaknesses, their core values, and life interests. To request permission to enroll in the course, fill out and submit the Prelaw Seminar application form: http://www.dhc.umt.edu/current_students/student_forms.cfm#prelaw. Honors Course for Spring 2013: HC 122E, Ways of Knowing II  
(3 cr.) TR 9:40-11:00 a.m. DHC 117 & 118, sections 80 & 81. Pat Burke, Sue Bradford

This course traces the major Western ethical traditions, examines the influence of those traditions in normative political theory, and provides dramatic illustrations of the moral life. The readings for this course are taken from the realms of literature, philosophy, and political science in an attempt to better understand humankind’s ubiquitous characteristic of moral thinking, the need to master impulse and control behavior, and the promulgation of laws and principles of restraint in response to feelings of guilt and aspiration to holiness. Ethical theory may also be regarded as the attempt to articulate a systematic way of understanding the classical Greek (and other cultures’) concern with the good
life. Students will be invited to consider alternative emphases of ethical theory, and to ask fundamental questions about the origins of authority for moral beliefs and commitments.

This course will be of particular interest for students who have taken Ways of Knowing or Introduction to the Humanities as a sequel that returns to the universal questions explored in those courses. Ways of Knowing II satisfies the General Education requirements for a course in Ethics and Human Values and in American and European Perspectives.
